

m_matrix::store_scalar
_into_lala

m_matrix::store_vector
_into_lala

m_matrix::str2ade

```
graph LR; A[m_matrix::store_scalar_into_lala] --> C[m_matrix::str2ade]; B[m_matrix::store_vector_into_lala] --> C;
```

The diagram illustrates a dependency or mapping between two source functions and a target function. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'm_matrix::store_scalar_into_lala' and the bottom box contains 'm_matrix::store_vector_into_lala'. On the right, there is a gray rectangular box with a black border containing the text 'm_matrix::str2ade'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both source functions are associated with or mapped to the target function.
